EXPERIENCE AND INTERNSHIPS

- Google AI-ML Virtual Internship:** Aug-Sept 2025
- The Google AI/ML Virtual Internship provides participants with hands-on experience in developing machine learning models and artificial intelligence applications. Interns work on real projects, gaining valuable insights and skills in cutting-edge AI technologies and data analysis.
- WEB FULL STACK DEVELOPER Virtual Internship:** Oct-Dec 2025
- The EduSkills Web Full Stack Developer Virtual Internship offers practical experience in building dynamic web applications using frontend and backend technologies. Interns engage in real-time projects, enhancing their skills in web development, database management, and version control. The program helps participants gain industry-relevant expertise in full stack development.

PROJECTS

- MediPredict — guiding you toward a healthier future**
- Developed an interactive web app using Python, Streamlit, and scikit-learn to predict diabetes risk from health metrics and lifestyle inputs.
- Hyderabad House Price Prediction App**
- Built a machine learning model to predict house prices in Hyderabad based on location, size, and condition, enabling buyers and sellers to make data-driven decisions. Implemented data preprocessing, feature engineering, and regression algorithms to achieve high prediction accuracy.
